Weaving instructions
Leaving a tail 1 yard long for hemstitching, begin weaving the pattern following the draft. Use the tail to hemstitch in groups of 4 warp ends, including an occasional 3- or 5-thread unit to keep the colors neat in the striped areas. Continue weaving for about 72", ending at the end of a pattern repeat.
Hemstitch as you did at the beginning. Leaving at least 6" for fringe on both ends, cut the fabric from the loom. Wet finish by your preferred method.
